

Welcome to George's Villas

We hope that you will find everything you need in your villa. Detailed below is some useful information on the amenities.

Electric

Your villa electricity supply is not always as constant as in the UK. You may find that the electricity will 'trip off' if too many appliances are used at once. If this happens, simply turn off some appliances and check that all the switches are in the up position in the main fuse box. This is located on the ground floor next to the stairs. If all switches are in the up position it may be that we are experiencing a temporary power cut.

Washing Machine

Open the lid to add washing, add the detergent in the 2nd slot from the right. Close the lid then select the temperature then switch the power on.

Air Conditioning

To operate the air conditioning, just press the on/off button and it will start to cool down the room very quickly, you will probably find it cool enough between 19-21 degrees. By lowering it to 16 degrees on the remote is much harder to get the temperature during high season. So that we can keep prices low and still include air conditioning in the price of your holiday, we ask you to not leave the air con on for longer than necessary. Electricity is exceptionally expensive here so please turn it off when you leave the villa. There are air con remotes for each room/unit.

Safety Deposit Box

The safety deposit box is situated under the dressing table and is operated via a code. Currently the code is set to 1234#.

Keys & Security

A replacement charge will apply for any lost keys.

Please make sure all windows and doors are closed when not in the villa. Whilst Lindos has a very low crime rate we ask everyone to take sensible precautions.

WiFi

Network: Georges_Villas

Password: R26H33JM

Cleaning

Ben linen and towels will be changed twice weekly.

Rubbish disposal

Please dispose of your rubbish in the green bins located on the main road. There is no recycling system in Rhodes, so everything can be put in the bin.

Smoking

Smoking is not permitted in any of our villas and we would request that you only smoke outside the villa. Please always use the ashtrays provided.

Breakages

Please report any breakages so that we can make arrangements for repair or replacement and to ensure that everything is in working order for yourselves and future clients. Any major breakages will need to be charged for.

Water

Tap water is perfectly safe to drink, however, due to the change in water and high mineral content we do recommend bottled water. You will find it much better value to buy a six pack of water than buying them individually.

Checkout Time

Please can you vacate the room by 10:30 and leave the key in the electricity key slot holder.
